

Sales Role - Accounting & Business Management Software

A dynamic Business Software Salesperson is required for Turnkey Business Software Limited, a leading Microsoft Gold Partner based in Central Scotland.

Whilst primarily focused on Microsoft Dynamics NAV (Navision), our solutions incorporate NAV, Bespoke Development, SQL Reporting Services, SharePoint, Business Intelligence, Web Design & Development and we also provide the infrastructure to underpin these systems.

Reporting to the Sales & Marketing Director, you will be part of a highly skilled sales team. This is a fantastic opportunity for a successful EPR salesperson to really make their mark in the Microsoft Dynamics channel.

Requirements:

As a Navision/Microsoft Dynamic NAV/EPR salesperson two or more of the following skill sets are ESSENTIAL as a basic qualification for application:

- At least 2 years experience of selling business software, though not necessarily the Microsoft Dynamics NAV product.
- An accounting background with a good understanding of two or more specialist areas – manufacturing, distribution, professional services, business analytics, mobile/web, human resources, payroll, CRM or similar.
- A professional, consultative, confident manner with good written and presentation skills. In addition, we require an individual who is fully results driven, commercially aware and has high integrity.

A competitive package is offered consisting of a base salary dependent on experience, excellent commission structure, health care and pension plan.

We will only accept applications from individuals (no agencies please).

How to Apply

Ring our recruitment line on **0141-644-8119** and follow the instructions carefully.

About Turnkey Business Software Limited:

Turnkey has over 30 years experience in providing IT solutions to medium to large organisations throughout the UK (150+ of our customers are using NAV).

Our reputation for providing highly professional solutions is unsurpassed in Scotland and in a recent independent survey we were marked at 100% customer satisfaction.

Today we continue to win new customers and attract existing Navision users from our competition.
