

## **Experienced Microsoft Dynamics CRM Consultant/Developer**

Turnkey, a well-respected and long-standing Microsoft certified partner are looking to recruit an experienced Microsoft Dynamics CRM consultant/developer.

The ideal candidate will have the following attributes:

- 3 years or more experience of Dynamics CRM with a strong knowledge of the platform in both on premise and on demand guises.
- Ability to undertake all aspects of CRM system development, including producing appropriate documentation, design specifications and testing.
- Experience of SQL Server, Web Services, ASP.NET, C# and XML.
- Excellent customer-facing and communication skills.

Experience with Microsoft SharePoint, MOSS 2007, Navision or other financial systems would be advantageous and you would be expected to act as a source of specialist knowledge, providing guidance and advice on the Dynamics CRM product and related areas, issues and technologies. You should also demonstrate the ability to multitask between various development projects simultaneously.

While formal certifications are advantageous, the ability to demonstrate practical hands-on skills is considered more valuable. You will be encouraged to attain formal Microsoft certification as part of your personal development.

This company offers an excellent opportunity for someone who is looking to demonstrate their capabilities within Dynamics CRM as well as expanding their knowledge into other areas. You will benefit from a generous package including company pension, private health care, mobile phone, laptop etc. The company also offers regular bonuses and excellent learning and development opportunities.
